SUMMARY

I am a Informatic Engineering student with a keen interest in the latest technological advancements. My passion lies in the development processes of mobile applications and websites. As an active student, I have served as the vice-chair of a student study group and actively participated in various software development projects throughout my academic journey. These experiences have provided me with a profound understanding of the technical aspects of mobile application and website development. I am enthusiastic about continuous learning and exploring new experiences. My goal is to contribute to innovation through technology.

EDUCATION

Politeknik Negeri Jakarta

2021 - Now

Bachelor of Applied Science in Informatic Engineering - Current GPA 3.88 (100 credits)
